Welcome to the Slovak page on the ECSA website.

The Slovak Customs Administration became a member of the ECSA in 2000. On 1 January 2012 the Slovak Customs Administration and the Slovak Tax Administration have merged into the one authority – the Slovak Financial Administration (SFA). This new governmental office employs around 9 600 employees and it is now responsible for the majority of the state revenue collection.

Sport is an important and popular part of the social life of our employees. Many of the useful international contacts have been established also by participating in the common sports activities within the ECSA. That is why this association is helpful also for the professional purposes, as the strengthening of the mutual cultural understanding between personnel affects our daily work and helps us to build successful communication with our colleagues abroad.

We use to organise competitions on regional and national level in the several disciplines each year and we regularly participate in the international sports activities organised by the ECSA, such as: Four days Marches of the City of Nijmegen, Czech Republic Customs Administration Championship in Running, Sniffer Dog's Competitions and shooting competitions. In all of them representatives of the SFA achieve always very good results.

Every second year SFA hosts the ECSA event – the International Championship in the Marathon Running as the part of the Košice Peace Marathon annual event, which has the longest tradition in Europe. It would be our pleasure to welcome representatives of all customs, tax and financial administrations in the city of Košice in 2024 once again!

### Sports

Running, Shooting, Sniffer dog, Table Tennis, Walking

### Director General

Mr. Jiří ŽEŽULKA

President

Financial Administration of the Slovak Republic

Lazovná 63

974 01 Banská Bystrica

Slovak Republic
