Tollvesenets Idrettsforening TIF (Custom Sports Association - Norway) was established in 2010, and became a member of ECSA in 2011.

TIF was established to gather all the local custom sports clubs into one organization in order to make it easier for Norwegian Custom Officers to participate in ECSA-events. Due to geographical challenges, it is difficult to arrange national sports events in Norway. Therefore are most of the sporting events within each local Customs sports club. The only exemption is the yearly football-tournament, which has been arranged every year since 1978.
